Brolga Reserve

Play space and park refurbishment

Lifestyle Capital of Victoria

In September 2022, construction will start on a new play space and park refurbishment work at Brolga Reserve in Carrum Downs.

About the project

Brolga Reserve is an important local park in Carrum Downs with five entrances from Lyrebird Drive, Brolga, Curlew and Parrot Courts and Honeyeater Place in Carrum Downs.

Frankston City Council's Play Strategy (2021) recommends that a new play space and overall park improvement work take place at Brolga Reserve as a priority based on the age and condition of the existing play equipment and strategic considerations such as access to other play spaces, demand and demographic data.

Key features

Key features of the new play space and park refurbishment work include:

- Play equipment that caters for all age groups;
- New picnic shelter;
- New seating, bins and drinking fountain;
- Nature play;
- Extensive tree planting;
- New paths.

Construction

Construction is scheduled to start in September, 2022. **Part of the park will be closed to the public during construction.**

The main entrance for construction vehicles will be from Curlew Court. Pedestrian access through the reserve will still be available from Curlew Court. *Please refer to Site Plan*

Site Plan

- Construction vehicle entrance
- Site fencing
- Pedestrian access

It is anticipated that construction will take approximately 12-weeks to complete, with the new play space opened in time for Christmas.

Construction activities may generate noise. We will ensure that works take place only between 7:30 a.m. and 5:00 p.m. on weekdays.

Thanks for your patience during construction.
