

Interesting ways of traversing the mound-sloping logs with cut steps and single sloping rail

Tall structure with tunnel slides gives the playspace height and presence on top of existing mound, to improve visibility of the playspace

Sloping path up mound, partially retained where required. Recycled doorway arches with embedded play elements along path, and small deciduous trees with bright autumn colour and blossom add focus to the mound. Grassed slope to roll down from path

Spinner post

Picnic table with advanced deciduous shade trees to north

Twin swing frame with high backed toddler seat and strap seat

Balancing edge

Informal seating area in shallow mulch with sawn rock or cube seats

St Anne's Primary School

Log with handles for push-ups and dips

Linemarking to assist with fitness training

Large rock steps up existing mound

Gravel path extends to carpark and toilet

Bronco rider two person unit

1.2m 'Big bench' serves playspace and oval

Tarzan climbing cube

New shade trees with curved seats and low garden under canopy

Twin turnover bars with steel posts

Path can be extended to cricket nets in future stage

Multi-directional basket swing

Seating area for playspace and spectators. Using door panels to create continuity with school fencing treatment. Use door panels behind and wire over to steel posts, planted with climbing plants

Fitness area, with parallel bars, and units for arm strength and leg strength

Screening planting and trees to side of Pavilion

Existing BBQ area

Dianne Byrne Pavilion

Existing paving
