

Formal Naming Proposal for Langwarrin Community Centre

Background

The Council-owned and operated facility at 2 Lang Road Langwarrin, currently known as Langwarrin Community Centre, was originally opened in 1992.

The centre is undergoing expansion to incorporate a kindergarten and Maternal and Child Health Services with existing community services and programs.

This much-needed redevelopment will meet the growing demand for kindergarten places in Langwarrin.

The project will include:

- Three purpose-built kindergarten rooms (providing a total of 99 kindergarten place)
- Upgraded and specially designed outdoor play spaces
- Upgraded main community centre main hall, meeting and activity rooms and community childcare and outdoor play area
- Two maternal health and child health consult rooms

The new facility is planned to be officially opened in February 2026, offering sessional hours for three- and four-year-old children alongside new Maternal and Child Health services and existing community services and programs.

The project is supported by the existing Langwarrin Community Centre and Langwarrin Kindergarten and follows an extensive site investigation and engagement journey over 12 years to create the additional kindergarten spaces, our growing community needs into the future and more recently and more recently to meet the Victorian Government's Kindergarten Reforms.
